RAA Caravan and Trailer Insurance Target Market Determination (TMD)

For each RAA Insurance product we are required to make a determination as to who our target market is by considering the attributes of the product together with the likely need, objectives and financial situation of persons in the target market. This helps to ensure our products continue to be designed and distributed for the benefit of our customers. In this document 'RAA Insurance', 'we', 'us' or 'our' refer to RAA Insurance Limited AFSL 232525.

This Target Market Determination (TMD) sets out the target market for our Caravan and Trailer Insurance product. The terms and conditions of our Caravan and Trailer Insurance product (this **Product**) are set out in the Caravan and Trailer Product Disclosure Statement (**PDS**) available at raa.com.au.

We have determined that our target market for this Product is as set out in this document. Where a person falls within our target market, this does not mean that the Product is right for their individual needs, objectives and financial situation. RAA Insurance does not consider these. A person needs to consider the PDS, and other information provided by us (and/or seek professional advice) before deciding to apply for this Product.

More information on the design and distribution of this Product and our review of this TMD is provided over page.

This TMD is effective from the date shown above and will apply to policies that are purchased or renewed on or after **1 May 2024**
