RAA

Welcome

For over 110 years we've strived to put our members first. Today we continue this tradition by giving more back to members.

We've introduced a new membership discount structure giving qualifying members* discounts on Road Service and Security Monitoring products, as well as simplifying and extending the existing member discounts on Insurance products.

We've also introduced a member statement with your renewal so you can see your discounts and benefits at a glance.

**Member savings depend upon the type of products you hold and the level of your membership. You must hold at least two product groups (e.g. Road Service and Insurance) before any membership discounts are applied. Product groups are Road Service, Insurance and Security Monitoring. You do not qualify for the discount if you hold multiple policies within the one product group.*
